# ABOUT PUNGROW

## About Pungrow

Pungrow is an educational toy brand that offers plastic building blocks available for creative designs and educational games.

# Think It & Create It

## About Pungrow

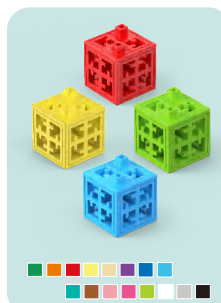

Pungrow blocks are a system of 6-side-interlocking building blocks with around 300 basic types of blocks available in 4 sizes, 16 colors, 6 shapes, and 1-4 tenons.

Due to their unique design of the mortise and tenon structure, Pungrow blocks are extremely flexible in connection that each block is connectable to others by their mortises & tenons on any side.

## About Pungrow

When paired with different Pungrow accessories, Pungrow blocks can be used to create unlimited designs, and provide a variety of educational games to help children develop skills & abilities.

# HOW PUNGROW MAKES A DIFFERENCE

- Unlimited Designs & Diverse Games
- Lasting Enjoyment
- Fun & Educational
- Parent-child Interaction

## How Pungrow Makes A Difference

# 01/ Unlimited Designs & Diverse Games

Unlike many other toy blocks in the market designed to be played in only one way that may inhibit imagination and creativity, Pungrow toys are available for both building creative designs and playing educational games.

Besides the figures showcased in the creation book, the 6-side-interlocking blocks allow children to build unique and creative figures beyond a specified theme, with tons of possibilities allowing children to create their own themes or worlds with their imagination.

# 02 Lasting Enjoyment

Most Pungrow toys are great for young children to begin with, but can still be fun for older children or even adults. The rich content of designs & games within each toy can help keep them engaged for a long time. That means our toys may stay with the children for years to come. Even when the children are bored with the existing Pungrow toys, they are cross-compatible so that a new toy can emerge with the old ones for more designs and games.

## How Pungrow Makes A Difference

### 03 Fun & Educational

As playtime is a great time to teach, Pungrow toys are designed not just to entertain children, but also to help children grow in physical, social, cognitive, and emotional development. Instead of playing with a toy just for fun, children can benefit from learning through crafting and playing with the Pungrow blocks.

 Hand-eye Coordination

 Fine Motor Skills

 Colors & Shapes Recognition

 Pattern Recognition

 Logical & Reasoning Skills

 Problem-solving Skills

 Planning Skills

 Memorization Skills

# 04 Parent-child Interaction

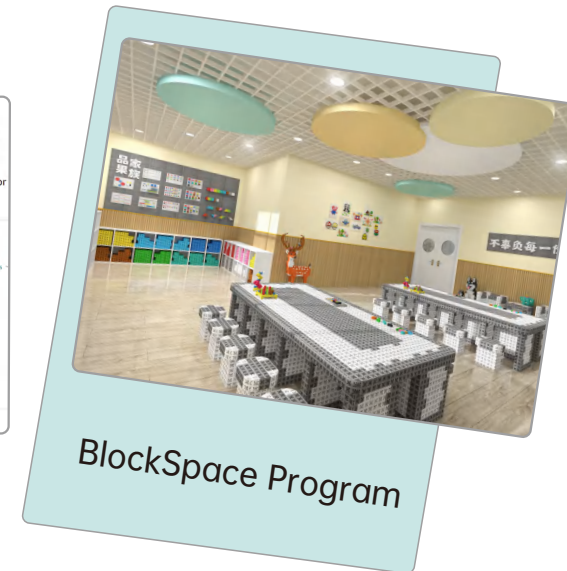

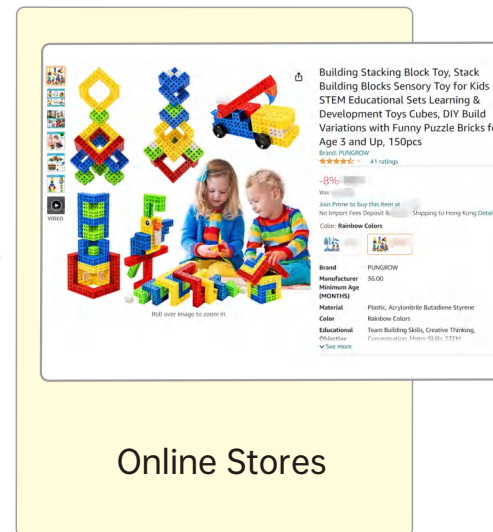

Pungrow toys are designed to emphasize a certain level of social interaction that parents or caregivers can work on with their children. They can join in on the fun of spending quality time with their children. The game and craft session can help them bond well with their children and inspire them to perform enlightenment education to their children.

## Pungrow Sales Channels

### HOW PUNGROW PRODUCTS ARE SOLD

Pungrow products are most favored by families, schools, and educational institutions. They are available to overseas customers in toy packages sold at local retail stores & E-commerce platforms and through the remodeling BlockSpace Program by Pungrow's local contractor partners

Fairy's Rainbow Garden

Flower House

With P2 Raingo accessories, children are able to create colorful and artistic flowers similar to real life flower arrangement which can help them develop fine motor skills, and instill a sense of aesthetic and accomplishment.

Jewelry Hall

With simple link-and-play, children can adorn themselves with a wide variety of jewelries, such as crowns, necklaces, bracelets, rings, etc., and dress themselves up as beautifully as their sense of beauty can reach. This new way of entertainment not only brings fun to children but also cultivates their aesthetics and creativity.

Floral Stage

Combinations of colorful beads, diverse flowers, and gear flowers, paired with plug-and-play building boards, present a flexible 2D & 3D drawing stage without brushes and paints, allowing children to create freely with boundless imagination.

## ABOUT US

Pungrow is a toy brand of Guangzhou S-up Kids Co., Ltd that focuses on educational block toys. Guangzhou S-up Kids Co., Ltd., established in 2008, is a Chinese company that develops, designs, produces and markets educational toys for global customers.

The company is headquartered in Guangzhou with a factory & logistics center in Chengdu and multiple branches across China.

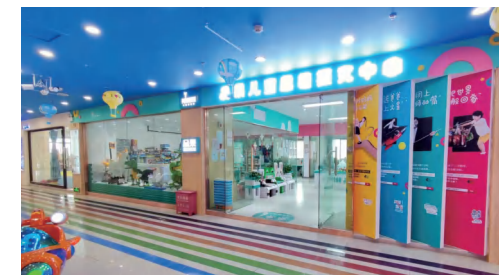

## COMPANY HISTORY

The company initially wholesaled various brands of educational toys, and later decided to have its own research and design. In 2013, the company launched its first self-development toy, consisting of a system of 6-side-interlocking blocks.

In 2018, the company set up the Pungrow Science and Education Research Institute and began marketing its block toys under the registered brand of Pungrow.

In 2019, Pungrow completed its first design of an early stage education course based on the Pungrow blocks & toys, which was later incorporated by an increasing number of educational institutions in China into their teaching curriculum. The company has never ceased on the innovation and design of educational toys.

Until 2022, the company has obtained over 100 domestic and global patents and copyright registrations.
